

SIMATS ENGINEERING (SAVEETHA SCHOOL OF ENGINEERING)

Department of Computer Science and Engineering

ASSESSMENT TOOL 1 – Technical Presentation

Course Code:	CSA0309	Course Title:	Data Structures
CO Assessed:	CO1 – Imitation (BL3, BL 4)	Assessment:	Assessment Tool – Technical Presentation
Weightage:	35% of CIA	Total Marks	100
CO1 Statement:	Apply suitable data structures and ADTs for efficient problem solving by analyzing time and space complexity.		
Student Name:	GAUTHAM G	Reg. No.:	192524371
Section / Batch:	SLOT-B	Date:	25/07/2026

Code of Conduct

I am GAUTHAM G (192524371) (Name / Reg No) certify that this submission is my original work and that I have adhered to the guidelines specified for this assessment. I understand that any violation of academic integrity rules will result in disciplinary action.

Signature of the Student: GAUTHAM G

Instructions

- This assessment contains technical presentation Total: 100 Marks.
- When a student delivers a technical presentation on a data structures topic, evaluation should be based on the following requirements: Concept explanation, Real-world application and Clarity of presentation
- Demonstrate clear understanding, not just reading slides
- Use of tools: PowerPoint / Google Slides
- Duration: 7–10 minutes presentation + 3 minutes Q&A

Section / Topic	Focus	Q Nos	Marks
-----------------	-------	-------	-------

Data Structure	Real-Time Applications	1	100
GRAND TOTAL:			100 Marks

Annexure A – Technical Presentation

A web browser supports navigating backward through previously visited pages. Recommend a suitable ADT and prepare a technical presentation explaining how it improves performance efficiency. (100 Marks)

(OR)

A music streaming application maintains a playlist where songs can be added, removed, or reordered dynamically. Recommend a suitable data structure and justify based on flexibility and efficiency. Prepare a technical Presentation. (100 Marks)

(OR)

A metro rail network maps stations and routes to determine reachable stations from a source station. Suggest a suitable data structure for representation and justify your answer. (100 Mark)

(OR)

A calculator application evaluates arithmetic expressions entered by users. Recommend a suitable data structure and justify based on expression processing efficiency. (100 Marks)

(OR)

A cafeteria token system serves customers strictly in the order of arrival. Identify the suitable ADT and justify why it ensures fairness. (100 Marks)

Rubrics for Calculation

Criteria	Weightage	Level 4 – Exemplary	Level 3 – Proficient	Level 2 – Developing	Level 1 – Beginning
Concept Understanding	20	Demonstrates deep and accurate understanding of data structure with insights and connections	Shows clear understanding with minor gaps	Basic understanding; some misconceptions present	Limited or incorrect understanding
Content Organization	30	Logical, well-structured, smooth flow; strong introduction and conclusion	Mostly organized with clear flow	Some organization but lacks clarity or transitions	Disorganized, difficult to follow
Technical Depth	20	Includes algorithms, complexity analysis, and advanced insights	Includes algorithm and basic complexity analysis	Limited technical details; missing depth	Minimal or no technical content
PowerPoint Slides	20	Excellent design, clear visuals, enhances understanding	Good slides with minor issues	Basic slides; somewhat cluttered or unclear	Poor slides or no visual support
Communication Skills	10	Clear, confident, engaging delivery; excellent articulation	Clear delivery with minor hesitation	Some hesitation; unclear in parts	Poor communication; difficult to understand

NetPulse: Intelligent Campus Network Monitoring & Security System

TECHNICAL PRESENTATION ON
CSA0309-DATA STRUCTURE

**GUIDED BY:
DR. UMA PRIYADARSHINI**

GAUTHAM G (192524371)

Abstract

- **NetPulse** is a web-based platform for intelligent campus network monitoring.
- It monitors network performance, connected devices, and bandwidth usage in real time.
- The system detects abnormal activities and provides instant security alerts.
- A centralized dashboard simplifies network management and troubleshooting.
- It offers an affordable and scalable solution for educational institutions.

Efficient Data Center Resource gement Using Trees And Heaps
